SUMMARY

Experienced Manufacturing, Purchasing, Planning and Distribution Executive. Seeking opportunity with a company that values Lean Enterprise Philosophies. Demonstrated abilities in:

- **Lean Operations**
- **Cellular Manufacturing**
- **Project Leadership**
- **Supply Chain Management**
- **ERP Implementation**
- **Kanban Pull System**
- **Kaizen Blitzes**
- **Mistake Proofing**
- **Forecasting**
- **Scheduling/Planning**
- **Corporate Purchasing**
- **Multi-Site Distribution**

PROFESSIONAL EXPERIENCE

Management

- Key executive involved with Lean Implementation, Distribution Strategy, Inventory Level Reductions, Company-wide Metric Criteria and Corporate Purchasing Initiatives.
- Successfully merged four discrete manufacturing operations after acquisition of Johnson & Johnson subsidiary, and two Orthodontic stand-alone businesses.
- Coordinated reductions in workforce, while maintaining positive work environment and employee productivity through honest communication of plans, developing compensation packages, and realigning positions

Manufacturing

- Certified Kaizen Blitz Event facilitator
- Facilitated and/or participated in over 150 Kaizen Blitz Events resulting in rapid improvement of company operations/systems and over \$12 million in company wide savings
- Re-focused "quick-fix" manufacturing environment to "root cause" identification and solution through application of Lean manufacturing concepts
- Instrumental in applying Cellular Manufacturing and Work Teams to the shop floor
- Eliminated 10,000 units of daily backorders within a 3-month period by applying one-piece flow, kanban visual systems and other Lean concepts
- Implemented individual cell scorecards, 5S principles, encouraged team involvement in problem solving, and maintained continuous improvement environment, leading to a 10% improvement in Gross Profit over 7 years

Corporate Purchasing/Planning

- Implemented hourly scheduling of over 25,000 SKU's, reducing inventory levels from 60 days to 3 days, increasing R/M turns by 300% and Finished Goods turns by 525%
- Generated over \$7 Million in PPV, reduced supplier base by over 50%, improved customer service levels by over 45% using innovative scheduling and corporate purchasing systems.
- Designated to be the Team Leader for Implementation of ERP software throughout Manufacturing Operations areas.

Distribution

- Increased customer service, improved response time and reduced freight costs by opening seven new distribution centers during a 24-month time period. Successfully negotiated lease options.
- Planned and managed relocation of one distribution operation to a new site in less than 72 hours, including re-layout of work and implementation of new systems. Moved over 500 thousand units, without missing a single order during the business day.
